

Your best hair: Every type, every age, every day

Make hair look and feel longer, stronger, thicker

BEYOND CLEAN AND CONDITIONED, these high-performance formulas treat follicles with compounds for healthy growth of longer, stronger, thicker hair.

Hair and scalp take a beating from ultraviolet radiation, environmental pollutants, styling chemicals, and other stress factors.

By 30, most women see less volume, shine, and strength. By 50, most men show signs of male pattern baldness.

The high-performance products of DS Laboratories not only clean and condition gently but also treat hair follicles for optimum growth.

Compare the active ingredients; read the latest science. The formulas of DS Laboratories contain more powerful compounds based on more current science working through more effective pathways.

Revita shampoos and conditioners, together with Spectral leave-in treatments, mean hair and scalp look and feel their natural best – every type, every age, every day. Try them for 90 days to see for yourself.

REVITA® / REVITA.LT®

High-performance hair-stimulating shampoos

ACHIEVE your personal best every day. Take your hair to the next level. Lengthen, strengthen, and speed the growth of any hair type. Free of parabens and sulfates, original Revita shampoo – and now Revita.LT for blond and other light shades of hair – delivers the perfect balance of science and style.

- Supports hair and follicle health with clinically proven compounds.
- Builds longer, stronger, thicker hair with structural amino acids.
- Provides rich hydration and antioxidant benefits.

Using Revita or Revita.LT daily means gaining the confidence you only get from a great head of hair.

REVITA.COR®

High-performance hair-stimulating conditioner

BOUNDLESS body and satiny shine endure long after hair has been rinsed. Because the bio-adhesive microspheres in this ultra-premium conditioner encapsulate many key compounds to penetrate deeper, persist longer, and work better.

- Delivers state-of-the-science hair-stimulating technologies.
- Contains plant stem cells to help follicles regenerate.
- Keeps working even after swimming or showering.

Outperforming common conditioners, the stimulating technology and luxurious composition of Revita.COR means hair can grow faster and shed less, to help us work our own magic every day.

SPECTRAL.LASH®

Eyelash stimulator / intensifying serum

LONG, LUXURIOUS eyelashes proclaim youth and attractiveness for both women and men. New Spectral.LASH, a powerful non-drug formula, can restore thickness and length to eyelashes, safely and effectively, because it deploys a breakthrough, proprietary peptide complex.

- Helps eyelashes grow 25 percent longer, with greater density, in just four weeks.
- Works safely by stimulating keratin genes with peptides.
- Provides beauty benefits without the side effects of drugs.

Lengthening and thickening with Spectral.LASH – as simple as using an eyeliner – means battling our eyelashes with the confidence of greater allure.

SPECTRAL.RS®

Advanced antiaging technology

MEN AND WOMEN who understand the importance of antiaging creams for skin also know the value of Spectral.RS for hair. This advanced leave-in treatment deploys multiple compounds to build volume and delay future evidence of solar radiation, environmental pollutants, styling chemicals, and aging.

- Contains Aminexil® and adenosine for stimulation, plus vitamins, minerals, and compounds for hormonal balance.
- Restores normal follicular function to produce great hair.
- Indicated for men and women.

A proactive regimen of prevention using Spectral.RS, before thinning and breakage become obvious, means keeping more hair thicker, stronger, and longer.

SPECTRAL.CSF®

Women's antiaging serum for thinning hair

WOMEN see clear, astonishing results when treating thin, fragile hair with Spectral.CSF. This light antiaging formula stimulates the scalp without weighing the hair needlessly. Research into female thinning – follicles, hormones, styling – results in this high-performance formula.

- Deploys powerful antioxidants and stimulating ingredients to support growth.
- Supports hair and scalp health with critical nutrients.
- Feels light and gentle.

Regular use of this light-touch, leave-in serum means your best hair without ingredients not needed by women.

SPECTRAL.DNC-N®

Breakthrough hair support with Nanoxidil

RESCUE that youthful hairline. See thicker hair at the vertex. Continuous innovation has resulted in Spectral.DNC-N. This powerful hair-follicle treatment can help both men and women to combat thinning and witness improvement, because it is the first to employ Nanoxidil.

- Opposes multiple causes of thinning and stimulates hair via multiple pathways, without side effects.
- Shows strong results at the vertex as well as the hairline.
- Works effectively for 12 hours due to Nanosome technology.

Spectral.DNC-N, especially in the early stages of thinning, means showing more hair and less scalp for years to come.

SPECTRAL.F7®

Efficacy booster agent with astressin-B

STRESS can lead to compromised hair, which can lead to more stress. Now Spectral.F7 offers new hope against stress-induced hair damage, because it is the first and only agent to incorporate astressin-B, a complex new peptide showing promise in early research.

- Influences hair follicles when stress hormones are over-expressed.
- Performs well as a single therapy or in combination with other treatments.
- Deploys astressin-B, a complex peptide (protein fragment).

Formulated into Spectral.F7 efficacy booster agent, astressin-B means gaining another great tool against the compromising effects of stress on hair.
