

About Americatel

A MERICATEL is a history-making international telecommunications company that has developed a unique niche in the Americas. It is the first regional carrier dedicated to servicing the needs of multinational companies operating in the Latin American and Caribbean regions. Through an established network of strategic partners and affiliates in key markets, Americatel assures its clients the highest quality, cost-effective, end-to-end digital communications available.

Americatel Corporation was formed in April 1993 by ENTEL Chile, the largest long distance carrier in Chile and a pioneer in the privatization of Latin America's telecommunications industry. The company was founded upon the business premise that an explosion of trade and commerce in the Americas had created new requirements for voice and data communication services between companies and their distant divisions and customers in the region. A need had arisen for higher quality telecommunications services for businesses and for in-country and intra-regional network solutions.

To meet this challenge, Americatel extended its reach in 1994, establishing local presence and strategic alliances. Additionally, operating agreements were arranged with nearly every country in the region, providing excellent end-to-end coverage to all our private network customers from Cape Horn to the Rio Grande. These strategic partners include the region's principal private carriers and industry leaders, together comprising the Americatel/ENTEL Network.

The commitment of Americatel to provide exceptional telecommunications solutions is second to none. The Americatel network has the strongest presence in Latin America, operating multiple teleports dedicated to the support of corporate network services within the region. Continuous efforts are being made to develop new services utilizing existing platforms and establishing commercial agreements with foreign telecommunications administrations to support new endeavors in the Americas.
